## **Laredo Petroleum Provides Preliminary Results of Commodity Derivatives For Fourth-Quarter and Full-Year 2016**

**TULSA, OK - January 30, 2017** - Laredo Petroleum, Inc. (NYSE: LPI) ("Laredo" or the "Company") announces preliminary results for its commodity derivatives for fourth-quarter and full-year 2016 and its basic and diluted weighted-average shares outstanding.

### **Commodity Derivatives Update**

For the three months ended December 31, 2016, Laredo received approximately \$35.0 million of net cash settlements on matured derivatives, net of deferred premiums paid. For the fourth quarter of 2016, the Company expects to report a loss on derivatives of approximately \$43.6 million, reflecting both matured and new contracts and future market prices in the forward curves of oil, natural gas liquids and natural gas. For the 12 months ended December 31, 2016, Laredo received approximately \$185.6 million of net cash settlements on matured derivatives, net of deferred premiums paid. For full-year 2016, the Company expects to report a loss on derivatives of approximately \$87.4 million, reflecting both matured and new contracts and future market prices in the forward curves of oil, natural gas liquids and natural gas. Although management does not expect these numbers to change, they are preliminary and unaudited.

Laredo maintains a disciplined hedging program to reduce the variability in its anticipated cash flow due to fluctuations in commodity prices. At December 31, 2016, the Company had hedges in place for 2017 for 6,852,875 barrels of oil at a weighted-average floor price of \$55.82 per barrel, representing approximately 70% of anticipated oil production in 2017. Approximately 80% of anticipated oil production in 2017 retains significant upside to an increase in the price of oil with those volumes either having a weighted-average ceiling price of \$86.00 per barrel or no ceiling at all. Additionally, the Company had hedges in place for 27,056,500 million British thermal units ("MMBtu") of natural gas at a weighted-average floor price of \$2.75 per MMBtu, 444,000 barrels of ethane at \$11.24 per barrel and 375,000 barrels of propane at \$22.26 per barrel.

Laredo records all derivatives on its balance sheet as either assets or liabilities measured at their estimated fair value. Laredo has not designated any derivatives as hedges for accounting purposes and Laredo does not enter into such instruments for speculative trading purposes. Gain (loss) on derivatives is reported under "Non-operating income (expense)" in Laredo's consolidated statement of operations.

### **Weighted-Average Shares Outstanding**

For the three months ended December 31, 2016, basic and diluted weighted-average shares outstanding were approximately 238.047 million and 243.507 million, respectively. For the 12 months ended December 31, 2016,

basic and diluted weighted-average shares outstanding were approximately 225.512 million and 228.676 million, respectively.
